PROFESSIONAL SUMMARY

Information Technology graduate (Advanced Diploma, Nelson Mandela University) specialising in software development and data-driven problem solving. Experienced in building full-stack web applications with C#, ASP.NET Core MVC and Microsoft SQL Server, and in writing SQL and Python for data analysis and reporting. Delivered end-to-end academic systems covering secure role-based access, relational database design and responsive front ends. Seeking an internship, graduate programme or entry-level role in Software Development or Data Science.

TECHNICAL SKILLS

Programming Languages: C#, Java, Python, JavaScript, TypeScript, SQL, Ruby, HTML5, CSS3

Frameworks & Libraries: ASP.NET Core MVC, .NET, React.js, Angular, Node.js, Entity Framework

Databases: Microsoft SQL Server (MSSQL), MySQL, relational database design, T-SQL queries, stored procedures

Data & Analytics: SQL reporting, data cleaning, Excel, pandas/NumPy fundamentals, data visualisation, requirements analysis

Tools & Practices: Git, GitHub, Visual Studio, Apache NetBeans, Agile/Scrum, unit testing, Singleton, Observer and MVC design patterns

Security & Systems: Application security, information security principles, networking fundamentals, Windows

Professional Skills: Analytical thinking, problem solving, teamwork, communication, adaptability, time management, attention to detail

EDUCATION

Nelson Mandela University — **Advanced Diploma in Information Technology** | 2025

Key modules: Advanced Software Development, Applied Project: Software Development, IT Project Management, Operating Systems, Information Security and Application Security.

Nelson Mandela University — **Diploma in Information Technology (Software Development)** | 2021–2024

Key modules: Development Software (C#), Technical Programming II, Information Systems I & II (Advanced Design), Development Software III Project and Support Services II.

Luphindo Senior Secondary School — **National Senior Certificate** | 2019

Bachelor's Degree pass. **Merit Award:** Nelson Mandela University, 2021.

PROJECTS

Prescription Management System — Capstone Project | 2024

Technologies: ASP.NET Core MVC, C#, Microsoft SQL Server, JavaScript, HTML, CSS
• Built a full-stack application for healthcare providers to create, update and track patient prescriptions and medication records.
• Implemented role-based access control and secure authentication; designed relational database schema and SQL queries.
• Added dosage and refill reminders plus an online refill-request workflow.

Primary Healthcare Management System — Capstone Project | Mar 2023–Nov 2023

Technologies: ASP.NET Core MVC, C#, Microsoft SQL Server, JavaScript, HTML, CSS
• Developed a system for appointment scheduling, patient records and provider interactions.
• Delivered patient registration, family planning, prenatal care, counselling, chronic medication and vaccination modules.
• Centralised patient data in a normalised SQL Server database, implemented role-based access and responsive design.

Notification Management System | 2024

Technologies: C#, ASP.NET MVC, design patterns
• Engineered a notification service for email, SMS and in-app channels.
• Applied Singleton for centralised dispatch and Observer for real-time delivery-status updates.
• Designed modular architecture with configurable notification preferences and priorities.

CERTIFICATIONS

• Introduction to Cybersecurity — Cisco Networking Academy
• Introduction to IoT (Internet of Things) — Cisco Networking Academy
• Introduction to Networks, CCNA v7 — Cisco Networking Academy (2021)
